

Recommended Project Plan

Interactive Readiness Dashboard

A data-rich hub for entrepreneurs to visualize their funding health. It features a 'Funding Readiness Score' gauge, real-time business credit monitoring, and a bento-grid layout showing eligibility percentages for different loan types like SBA, Line of Credit, and Venture Debt.

Suggested Files:

- DashboardHome.tsx
- ReadinessGauge.tsx
- EligibilityHeatmap.tsx
- CreditScoreTracker.tsx
- ActionableGapsCard.tsx
- dashboard-styles.css

AI Strategist Chat Workspace

The core interactive interface where the AI Orb visual resides. This page provides a focused chat environment for deep-diving into business financials, uploading pitch decks for instant feedback, and receiving step-by-step guidance on fixing documentation errors before they hit a lender's desk.

Suggested Files:

- ChatInterface.tsx
- AiOrbComponent.tsx
- DocumentUploadSidebar.tsx
- InsightPanel.tsx
- MessageThread.tsx
- useStrategistLogic.ts

Lender Routing & Matcher

A curated marketplace view that uses AI to match the entrepreneur with specific lenders. Instead of a generic list, it shows 'Confidence Scores' for each lender, explains the 'Why' behind the match, and displays specific terms the user is likely to receive based on their analyzed data.

Suggested Files:

- LenderMarketplace.tsx
- MatchConfidenceCard.tsx
- LenderFilterSystem.tsx
- ComparisonModal.tsx
- routing-utils.js

Document Compliance Vault

A high-security area where users manage the 'Paperwork' aspect of funding. The AI scans uploaded files (Tax returns, P&L statements, Secretary of State filings) to identify inconsistencies or missing signatures that cause 'Banker Theater' delays.

Suggested Files:

- VaultMain.tsx
- FileCategorizer.tsx
- AiAuditReport.tsx
- EncryptionBadge.tsx
- FolderStructure.tsx

Data Integration & Profile Sync

The technical nerve center where users connect their financial stack. This page manages OAuth connections to Plaid (banking), QuickBooks/Xero (accounting), and credit bureaus, allowing the AI Strategist to pull live data for accurate funding predictions.

Suggested Files:

- IntegrationsPage.tsx
- ConnectionStatusCard.tsx
- PlaidLinkModule.tsx
- DataPrivacyControls.tsx
- ApiSyncLog.tsx
- integration-config.json
